

IN THE DRAWINGS

Substitute new Sheet 3 of 3, illustrating FIG. 6, for the drawing sheet 3/3 previously submitted.

REMARKS

Claims 1-3 were objected to because of incorrect grammatical usage. Claim 1 has been amended in response to those objections.

The drawings were objected to under 37 CFR § 1.83(a) in that the means for shifting of Claim 2 and the threaded part of Claim 3 must be shown. New FIG. 6 has been substituted for the original drawing sheet. The new FIG. 6 shows mated threads on the shaft 11 and outer part 14. These mated threads provide "the means for shifting" of Claim 2 and are the threaded components of Claim 3.

The examiner indicated, after citing the objections discussed above and corrected as indicated, that Claims 1-3 were allowable. Having entered all of the corrections previously discussed, allowance of Claims 1-3 is hereby requested.
